

To whom it may concern,  
Please reconsider any plan to convert the K-LOVE radio station in the San Diego, CA area (100.1 FM) to an LPFM service.

K-LOVE is a great Christian music radio station with a family-friendly, commercial free format. The station has a lot of listeners from Oceanside all the way to the U.S./Mexico border. They are encouraged by the positive music K-LOVE plays every day.

If K-LOVE were replaced by a LPFM service, K-LOVE could not reach the listeners in this area.

I believe K-LOVE's appeal stretches beyond the 'typical' Christian audience; my friends, whether they are Christians or not, enjoy K-LOVE. That is why I feel compelled to submit this electronic comment to you. It is really refreshing to have a station like K-LOVE whose motive is to \*encourage\* people. I've listened to other Christian radio stations and find some are just too 'preachy'.

So, please don't convert K-LOVE to a LPFM service.

Sincerely,  
Lani
